The Loading Bay is left clear at all times unless loading/unloading is in progress;

The vehicle is not left unattended when transferring items to and from Exhibition areas.

During large build-ups we suggest that there are enough personnel to unload and then supervise the transfer of materials to the areas, whilst the vehicle is removed from the Loading Bay.

All corridors and Fire Exits are left clear to ensure access is maintained at all times.

Exhibitors can use the West & East Long rooms for any additional storage on the 3rd floor. Please be advised that FACE and The QEII Centre hold now responsibility for the loss or damage of any items stored throughout the event.

Please note both rooms are fire exit routes and thus the aisle will need to be kept clear in both rooms.

WASTE MATERIALS

Please note that **exhibitors are responsible** for the clearance of their own rubbish and other waste materials from the Centre at the end of their event. In the event that this needs to be undertaken by the Centre a charge of **£25.00 per cubic metre** will apply for rubbish and waste materials **exceeding two cubic metres**.

EMERGENCY PROCEDURES

The QEII Centre is committed to the safety of all its staff, clients and visitors.

There is a 24 hour manned emergency number in the building, which is 4444. This can be dialed from the house phones, located throughout the building, or any phone provided to you by the Centre. This number should be used for emergencies ONLY, such as to report a fire, a first aid situation or a security incident. DO NOT dial 999 on a mobile phone, as this will cause confusion to the emergency services that have approved our system, and will therefore also cause a delay.

FIRE

Familiarise yourself with the **FIRE EXITS** and **FIRE ESCAPE ROUTES** from the floors you will be using, and brief any staff/stewards to do so also. There are four fire exit staircases in the building.

FIRE ALARM

To raise the alarm, either operate the nearest alarm by breaking the glass, or dial 4444 and report verbally.

Once an alarm is raised, a two-tone general alert will sound briefly, followed by an automated PA announcement stating that the alarm is being investigated. During this time, Floor Wardens who are trained members of QEII staff will make their way to their designated floors to reassure people that the situation is under control. Unless there is obvious evidence of a fire no immediate action is necessary.

Once the cause of the alarm has been established, this may take a while, an announcement will be made stating whether the alarm is false, no action need be taken, or a real emergency, in which case further instructions will be given. All instructions will be repeated, and the designated Floor Wardens will control any evacuation, which may be necessary. The assembly point in an evacuation is normally the column opposite the Centre's main entrance (by Westminster Abbey); any alternative will be announced by Security Control.

AUTOMATIC ACTIONS

When the alarm sounds, the following automatic actions will occur:

- 1- All electronically locked doors will be freed; this includes any doors, including Fire Exit doors, which may have been secured to restrict access. Doors, which are magnetically retained in the open position, will close automatically and it is for this reason that no door should be wedged open.
- 2- All lifts will be grounded automatically, and cannot be used once an alarm sounds.
- 3- The emergency lighting will come on, but other lights may go out. The emergency lighting lights the way to your nearest fire escape route.
- 4- **DISABLED PERSONNEL** – Please inform your FACE Ltd Representative of any visitor that may need assistance in an emergency situation. Preferably prior to the actual event day in order that a Personal Evacuation Plan (PEP) can be made. A copy of PEP proforma is included with these notes.

MEDICAL

Qualified First Aiders are on site during all events. Should you have a medical emergency notify Security Control on 4444, and a First Aider will be despatched. There is a First Aid Room on the ground floor to which First Aiders have access. The First Aider will arrange for an ambulance should this become necessary.

GENERAL SECURITY

Other incidents, such as a terrorist attack or structural disaster will be acted upon following an assessment of the specific occurrence. For example, the evacuation of delegates from the building following an assessment that there may be a car bomb in an adjacent street may be counter-productive. It may be more appropriate to move delegates to a safe area within the building. Similarly, to remain within the building following an assessment that explosive devices are likely to be on site could be catastrophic.

When possible Centre Management will make assessments with the cooperation of the police and where time permits event organisers will be included in the process.

An announcement to evacuate will be made via the PA system stating staircases to be used and the designated assembly point. Centre staff will act as floor wardens to assist the process.

Event organisers, their delegates and staff are encouraged to notify Security Control on extension 4444 should they become suspicious of any activity, bag or package.

Centre security staff would appreciate assistance from event organisers, exhibitors and their staff in establishing a cordon around any suspect item and beginning initial enquires into the identity of the possible owner.

If you have any queries regarding these instructions, please telephone the Security Section:

Dan Blyghton Security Inspector on 020 7798 4053

- PERSONAL EVACUATION PLAN -

Please read or ask for the Fire Evacuation Instructions displayed around the building to be read to you.

We will show you some Fire Refuge Points where you can wait safely with a Fire Warden

We will show you the nearest Fire Exit Routes to where you will be within the building
